

# FUJI ELECTRIC REVIEW vol.60 no.2 2014 Detailed Contents

<b>Preface</b> “Contribution of Fuji Electric’s ‘Energy-Related Business’ to a Safe, Secure and Sustainable Society”	74
<b>Special Conversation</b> “A Challenge to Energy Innovation Through Power Electronics – Expanding Applications of Power Electronics via Device Innovation”	76
<b>Achievements and Future Outlook</b> “Providing Energy Solutions”	84
<b>Highlights</b>	91

Indoor Stand-Alone Power Conditioner for Photovoltaic Power Generation “PVI1000-3/660”  
 Cloud Type MEMS for Smart Apartments  
 Small- and Medium-Scale Monitoring and Control System “MICREX-VieW XX”  
 Energy-Saving Hybrid Air Conditioner Utilizing Indirect Outside Air “F-COOL NEO”  
 Japanese Top Runner Standard Compliant MOLTRA “FM-T14”  
 General-Purpose Inverter “FRENIC-Ace Series”  
 Stack-Type Inverter “FRENIC-VG Series” (690 V Series)  
 Large-Capacity UPS “7000HX-T4”  
 Emergency Stop Pushbutton Switches ( $\phi 22$  and  $\phi 30$ )  
 The 2nd-Generation LLC Current Resonant Control IC “FA6A00N Series”  
 Starting Mass Production of SiC-SBD Chips in 6-inch Manufacturing Line  
 Vending Machines with IEC Standard Compliant Glass Front “Twistar”  
 Next-Generation Cold Storage Container “D-BOX”  
 Steam Generating Heat Pump System Utilizing Waste Heat from Factories  
 Aerosol Multi-Analysis Technology

<b>Electric Power Generation Systems</b>	99
<b>Outlook</b> .....	99
<b>Thermal/Geothermal Power Plants</b> .....	101
① Indonesia ISM Thermal Power Plant Starts Operation	
② Units 1 and 2 in Yoshinoura Thermal Power Station Starts Commercial Operation	
③ PJG#1 Cogeneration Power Plant for China Starts Operation	
④ Turkey’s Kizildere II Geothermal Power Plant Starts Commercial Operation	
⑤ The Philippines’ Maibarara Geothermal Power Plant Starts Commercial Operation	
⑥ Renewal of Turbines in Mae Moh Thermal Power Plant of Electricity Generating Authority in Thailand	
<b>Wind Power Generation Systems</b> .....	103
① Isolated Operation System for Emergencies with Wind Power and Storage Batteries	
<b>Fuel Cells</b> .....	103
① Deliveries of Fuel Cells in Japan	
② Overseas Deliveries of Fuel Cells	
<b>Nuclear Power</b> .....	104
① Delivery of Temperature Variable Current Lead	

<b>Social Infrastructure</b>	105
<b>Outlook</b> .....	105
<b>Power System and Distribution</b> .....	107
① Otozawa Power Station Dam Monitoring Console for Kansai Electric Power Co., Inc.	
② Remote Control System for Power Plants of Bureau of Transportation Tokyo Metropolitan Government	
③ Technology to Estimate Photovoltaic Power Generation Output and Load for Power Distribution Automation System	
④ Power Distribution Automation System for Overseas Markets	
⑤ Retrofittable Digital Load Regulator Control Unit	
⑥ Power Line Communication (PLC) Evaluation Technology	
<b>Energy Management</b> .....	109
① Results of Demonstration in Kitakyushu Smart Community Project	
② Keihanna BEMS Demonstration Project	
③ Intelligent DC Multiterminal Power Supply	
④ Demonstration Projects for Next-Generation Power Control Systems Using Two-Way Communications	
<b>Social Environment</b> .....	110
① “Local Government Integrated Address e-System” Accommodating Social Security and Tax Number System	
<b>Industrial Infrastructure</b>	111
<b>Outlook</b> .....	111
<b>Substation Systems</b> .....	113
① Delivery of a Main Transformer for the Kawasaki Thermal Power Station of Tokyo Electric Power Company	
② Start of Operations of the JBF 66 kV Substation for the Bahrain Electricity and Water Authority	
③ Delivery of 200 MVA Transformers at the Kimitsu Works of Nippon Steel & Sumitomo Metal Corporation	
④ “72 kV Environmentally Friendly C-GIS”	
⑤ Upgrade of the Kitatatsu Substation on Line No. 5 of the Express Electric Tramway of the Osaka Municipal Transportation Bureau	
⑥ Shipment of “S-FORMER” Rectifier Units for Sadara Chemical Company in Saudi Arabia	
⑦ Degradation Diagnosis Technology for Electrical Equipment	
<b>Machinery and Electric Systems</b> .....	115
① Expansion of Upgrade Tools for Existing Control Systems	
② Multi-Functional On-Shore Power System for Ships and Vessels	
③ Electrical Equipment for Aluminum Material Surface Treatment Process Lines	
④ Upgrade of Bar and Wire Rod Mill Electrical Equipment for Ege Çelik in Turkey	
⑤ Container-Type Data Center “F-eCoMo”	
⑥ Delivery of Information Terminals for Rest Areas on the Tomei Expressway	
⑦ Introduction of Global Cloud-Based FEMS System	
⑧ NEDO Indonesia Demonstration Project	
<b>Instrumentation and Control Systems</b> .....	118
① Instrumentation and Control System for Food Industry	
② Instrumentation and Control System for Iron and Steel Industry	
③ Instrumentation and Control System for Waste Disposal Plant	
④ Board-Type “SX Bus I/O”	

# FUJI ELECTRIC REVIEW vol.60 no.2 2014 Detailed Contents

- 5 Information and Process Control System “MICREX-NX”
- 6 “MICREX-NX” Function Enhancement Related to Solutions for Chemical Field
- 7 New Functions of Package Software Supporting Data Collection and Analysis
- 8 New Functions of “HEART” Engineering Tool
- 9 Laser Gas Analyzer for Two-Element (CO+O<sub>2</sub>) Measurements “ZSS”
- 10 Laser Gas Analyzer for Improving Converter Gas Recovery Efficiency
- 11 Next-Generation Global Standard Temperature Controller “PXF Series”
- 12 Residential Fire (Smoke Type), Gas and CO Alarm “KN-95”
- 13 Enhancement of Vibration Sensor
- 14 Health Monitoring System for Building Structures

## Power Electronics Equipment 123

Outlook ..... 123

Drives ..... 125

- 1 Expansion of “FRENIC-HVAC Series” Inverters for Air Conditioning (200 V and 575 V)
- 2 Capacity Expansion of Compact Inverter “FRENIC-Mini (C2S) Series”
- 3 “E-SX Bus” Compatible Servo Amplifier “ALPHA5”
- 4 High-Speed Motor for Automotive Testers “GNQ1165A”
- 5 Medium-Voltage Inverter that is Compatible with Different Input/Output Voltages

Power Supply ..... 126

- 1 Small-Capacity Offline UPS “UX Series”
- 2 High-Efficiency Front-End Power Supply “FH02650UAD” for Servers
- 3 Low-Voltage, Large-Capacity Momentary Voltage-Drop Protector “UPS8000D-3/500S”

Transportation Power Electronics ..... 127

- 1 Rack and Pinion Door System for 7300 Series Trains Owned by Yurikamome Inc.
- 2 Power Supply Equipment for Cruise Train of Kyushu Railway Company
- 3 Linear Door System for E233 Series Vehicles for Saikyo Line and Yokohama Line of East Japan Railway Company
- 4 On-Board Charger (OBC) for Environmentally-Friendly Vehicles

Electric Distribution and Control Devices ..... 129

- 1 Expansion of Magnetic Contactor “FJ Series” (40 to 95 A)
- 2 Expansion of Small Low-Voltage Circuit Breakers in “G-TWIN Λ Series”
- 3 Molded Case Neutral Circuit Breaker for High-Voltage Direct Current (400 to 800 AF)
- 4 Magnetic Contactors for Photovoltaic Power Generation Equipment “SC-N14/DS” and “SC-N16/DS”
- 5 Lineup Expansion of Small Contactor “SK Series” (Types SK18 and SK22)

## Electronic Devices 131

Outlook ..... 131

Power Semiconductors ..... 133

- 1 “Super J-MOS FRED Series”
- 2 Small IPM for Industrial Use

- 3 One-Chip Linear Control IPS “F5106H”
- 4 900 V Reverse-Blocking IGBT (RB-IGBT)
- 5 Power Semiconductor Simulation Technologies
- 6 Medium-Capacity Small Package of “V-Series” IPM
- 7 1,700 V Withstand Voltage SiC Hybrid Module
- 8 IGBT Module with Pre-Applied TIM
- 9 New Assembly Technologies for  $T_{jmax}$  175°C Continuous Operation Guaranty of IGBT Module
- 10 Packaging Technology of IPMs for Hybrid Electric Vehicles
- 11 Thermal Fluid Simulation Technology
- 12 600 V Discrete RB-IGBT “FGW85N60RB”
- 13 All-SiC Module for Power Conditioners

Photoconductors ..... 137

- 1 High-Durability, Negative Charging Organic Photoconductors
- 2 High-Sensitivity, Positive Charging Organic Photoconductors

Disk Media ..... 138

- 1 Large-Capacity, High-Reliability Perpendicular Magnetic Recording Media

## Food and Beverage Distribution 139

Outlook ..... 139

Vending Machines ..... 141

- 1 Wall-Type Freezer Showcase with Built-in Inverter Freezer
- 2 Foods Vending Machine for Convenience Stores “FGS260W”
- 3 Canned Beverage Vending Machine with Hybrid Heat Pump II “FA25M5RD4WK-FOP”

Cold Thermal Energy Control Technology ..... 142

- 1 “High-Quality Cold Chain System”

Currency Handling Equipment ..... 142

- 1 Coin Mech “FEVT Series”
- 2 Large Storage Capacity Coin Roll Stocker “CST770”

## Fundamental and Advanced Technologies 143

Outlook ..... 143

Fundamental Technology ..... 145

- 1 Analysis Technology Supporting the Development of Next-Generation Power Devices
- 2 Equipment Loss Prediction Technology Using Device Equivalent Circuit Model
- 3 Conformance to Power Electronics-Related International Standards
- 4 High-Speed Database Technology
- 5 Virtual Hardware Application Technology for Development of Built-in Equipment
- 6 Technology of Optimum Utilization of Power Magnetic Materials

Advanced Technology ..... 147

- 1 Magnetic Layer Technology for Heat Assisted Magnetic Recording
- 2 Modular High Temperature Gas-Cooled Reactor Featuring Complete Passive Safety Characteristics
- 3 Application of Machine Learning Technology to Robot Vision
- 4 1,700 V Withstand Voltage Class SiC-SBD
- 5 13 kV Class Ultra-High Withstand Voltage SiC-IGBT
