Notification regarding the Production Discontinuation of Some Solid-state trip type Auto Breakers BX Series (BX100 to BX630) and Accessories

We would like to thank you for your continued patronage of Fuji products.
 We are writing to announce the production discontinuation of some of our products.
 Details are described below.
 Please review the following information and take appropriate actions.
 Please also inform all related sections of your company of this discontinuation.

Product name	Auto breakers
Series name	Solid-state trip type Auto Breakers BX Series: BX100, BX160, BX250, BX400, BX630
Type	<p>The following products and accessories will be discontinued.</p> <ol style="list-style-type: none"> 1) Control unit with ammeter (type 5A, type 6A) 2) 100 A and 160 A BX250RAE products 3) 48 V AC shunt trip devices and undervoltage trip devices Also corresponds to the separately sold products "BX9F3H0" and "BX9RSH0-A" 4) 48 to 60 V DC motor-operated devices <p>Note: Also corresponds to the solid-state EX Series earth leakage circuit breakers used as auxiliary devices for the products in items 3) and 4)</p>
Reason for discontinuation	To standardize products
Replacement models	<ol style="list-style-type: none"> 1) The control unit with ammeter can be replaced with the control unit with watt-hour meter (type 5E, type 6E). 2) For 100 A and 160 A BX250RAE products, please select BX100HAE or BX160HAE, respectively. 3) There are no replacement products for 48 V AC shunt trip devices, undervoltage trip devices, and 48 to 60 V DC motor-operated devices. Please use a product with other voltage specifications.
Date of discontinuation	March 31, 2021
