Net Sales and Operating Income by Segment for 1Q FY2012 Fuji Electric Innovating Energy Technology

(Billion yen)

	Net Sales			Operating Income		
	1Q FY2011	1Q FY2012	Change	1Q FY2011	1Q FY2012	Change
Power Generation/ Social Infrastructure	21.5	24.3	2.8	-1.0	-0.3	0.7
Industrial Infrastructure	17.9	22.5	4.6	-1.0	-1.0	-0.0
Power Electronics	35.5	31.1	-4.4	0.9	-0.3	-1.2

➤ **Power Generation / Social Infrastructure**

Sales in the power generation business were up year on year due to large-scale orders for thermal power plants to be used overseas. In the social infrastructure business, sales increased due to a rise in demand for the products supplied in the transformer and power distribution equipment businesses transferred from Japan AE Power Systems Corporation as well as for radiation measurement equipment. Operating results improved following sales increases and lower costs.

➤ **Industrial Infrastructure**

In the industrial plant business, sales were up due to strong domestic demand and the results of our efforts to strengthen our network of engineering bases in Asia. In the facilities business, sales increased following a rise in large-scale overseas orders. However, both businesses were affected by increased cost competition with companies from Europe and the United States, which was further fueled by the strength of the Japanese yen. As a result, operating results were unchanged.

➤ **Power Electronics**

In the drive business, sales were down due to sluggish demand in China and the impacts of the inventory adjustment trend seen among domestic customers. In the power supply business, sales decreased as a result of lower demand for servers and other products. In the ED&C components business, sales declined due to reduced demand in Japan and Asia. Operating results worsened for all businesses as a result of the drops in sales.

Net Sales and Operating Income by Segment for 1Q FY2012 Fuji Electric Innovating Energy Technology

(Billion yen)

	Net Sales			Operating Income		
	1Q FY2011	1Q FY2012	Change	1Q FY2011	1Q FY2012	Change
Electronic Devices	29.2	25.9	-3.2	-1.4	-1.6	-1.0
Food and Beverage Distribution	25.3	28.8	3.6	-1.6	1.1	2.7
Others	22.8	25.1	2.3	-0.3	0.0	0.3
Elimination and Corporate	-12.1	-11.0	1.1	-1.1	-1.0	0.1
Total	140.1	146.7	6.6	-5.5	-3.0	2.5

➤ **Electronic Devices**

In the semiconductor business, demand in the automotive electronics business was up, while demand in the industrial and power supply application businesses was down. As a result, both sales and operating results worsened. In the magnetic disk business, sales were down due to lower selling prices, but operating results improved thanks to the benefits of the business restructuring initiatives implemented in the previous fiscal year.

➤ **Food and Beverage Distribution**

In the vending machine business, sales increased due to strong replacement demand for energy-saving environmentally friendly vending machines. In the store distribution business, sales were up due to increased orders for the establishment of new convenience stores and the renovation of existing stores as well as large-scale automatic change dispenser replacement demand. Operating results improved for both businesses due to higher sales and the benefits from the business restructuring initiatives implemented in the previous fiscal year.

Consolidated Balance Sheet at the end of 1Q FY2012
