

Abolishment of High Voltage Diode: model “ESJC series”

Our High Voltage Diode, “ESJC series” has been had your custom for a long period of time. However, it became difficult to continue the stable production due to extreme small of volume of the materials and superannuation of equipment.

Therefore, we have decided to abolish the following models and stop their production which has been enjoying your past patronage.

Your understanding of this situation will be very much appreciated.

1) Notification Content : Production stoppage of the following ESJC series

2) Target model to be abolished:

ESJC03 types	ESJC04 types	ESJC07 types	ESJC13 types	ESJC15 types
ESJC16 types	ESJC30 types	ESJC32 types	ESJC34 types	ESJC35 types
ESJC37 types				

3) Background of Notification:

- ① Stable production is impossible due to extremely small volume of order.
- ② Continuous production is impossible due to the superannuation of equipment.

4) Production planning in the future (schedule of abolishing the model):

- ① The confirmation report of final requirement : Preferably by the end of December 2005
- ② Final order receipt: The end of January 2006
- ③ Final production: The end of March 2006
